PROFESSIONAL SUMMARY

BCA graduate with hands-on training and project experience in **Python, SQL, MySQL, Power BI, and Machine Learning**. Completed a Data Science Master's Program with practical experience in data preprocessing, analysis, visualization, machine learning model development, and database management. Experienced in developing machine learning applications, interactive dashboards, and database-driven applications. Seeking an entry-level opportunity in **Data Analytics, Data Science, or Python Development**.

EDUCATION

Bachelor of Computer Applications (BCA) — Software Development and Web Design

Srinivas Institute of Technology, Mangalore | 2022–2025 | CGPA: 6.48

DATA SCIENCE TRAINING

Data Science Master's Program — Livewire, Kasaragod | Aug 2025 – Sep 2026

- Developed practical skills in Python, SQL, Machine Learning, and Data Analysis.
- Worked with Pandas, NumPy, Matplotlib, Power BI, and MySQL for data processing, analysis, and visualization.
- Developed machine learning applications using real-world datasets, including data preprocessing, model training, and evaluation.

EXPERIENCE

PHP Web Development Intern — Datanex, Mangalore | Jan 2025 – May 2025

- Developed web application features using PHP, HTML, CSS, and MySQL.
- Implemented database integration and CRUD operations.
- Performed debugging, testing, and improvements to web application functionality.

TECHNICAL SKILLS

Programming: Python, SQL, Java, C, C++, PHP, HTML, CSS

Data Science & ML: Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow

Data & BI: Power BI, Microsoft Excel, Data Analysis, Data Visualization, Data Preprocessing

Databases: MySQL, MySQL Workbench, DBMS

Tools: Git, GitHub, VS Code, Google Colab, Jupyter Notebook, Streamlit

Core: Machine Learning, Deep Learning, Computer Vision, NLP, OOP

PROJECTS

Employee Salary Prediction — Python | Pandas | NumPy | Scikit-learn | Tkinter | Excel

- Developed a machine learning application to predict employee salaries using Python and Scikit-learn.
- Processed employee salary data from Excel using Pandas and NumPy for analysis and model training.
- Built an interactive Tkinter GUI for entering employee details and displaying predicted salary results.

Railway Ticket Booking System — Python | Tkinter | MySQL

- Developed a Railway Ticket Booking System with an interactive graphical user interface.
- Integrated MySQL to manage train details, passenger bookings, available seats, and booking records.
- Implemented booking confirmation, search, cancellation, seat management, and reset functionality.

Flipmart Sales Dashboard — Power BI | Excel | Power Query | DAX

- Developed an interactive Power BI dashboard to analyze sales, profit, quantity, and transaction performance.
- Performed data cleaning and transformation using Power Query and created DAX measures for KPIs.
- Designed visualizations for sales by shipping mode, customer segment, country, product category, and top sub-categories.

Company Payroll Management System — MySQL | SQL | Database Management

- Developed a MySQL-based payroll management system for employee details, attendance, and salary information.
- Designed relational database tables using primary and foreign keys.
- Implemented SQL queries and CRUD operations for employee and payroll management.
- Performed data analysis and salary calculations using SQL.

CERTIFICATION

- Infosys Springboard Certificate
